BURLINGTON '02

Winner of the People's Choice Award in the Burlington Design Expo, this 3800 sq. ft. house and its frame was designed by Joshua Coleman, a principal with Lancaster County Timber Frames, Inc. The frame was also raised by Lancaster County Timber Frames, Inc. from Lititz, PA in 2002.

Lancaster's Anthony Zaya reported: "This client came to us with photos and postcards of lighthouses from shore points on both coasts. The structure was to be a vacation and weekend home, and he wanted to satisfy his long-held fantasy of living in a lighthouse. We were happy to indulge him."
